

List of Applicable Device Models for the Maintenance Card V3.2

Effective Apr 1, 2026

Maintenance Card is designed to effectively meet the requirements of extending the warranty period of distribution products. You can extend the warranty period of the device by associating the password of the maintenance card with the corresponding device SNs.

Note 1: High-level maintenance cards of Intelligent Collaboration products are applicable to low-level device models. The relationships are as follows:

- Category 5 Intelligent Collaboration maintenance card: It can also be used for category 1, 2, 3, and 4 Intelligent Collaboration devices.
- Category 4 Intelligent Collaboration maintenance card: It can also be used for category 1, 2, 3 Intelligent Collaboration devices.
- Category 3 Intelligent Collaboration maintenance card: It can also be used for category 1, 2 Intelligent Collaboration devices.
- Category 2 Intelligent Collaboration maintenance card: It can also be used for category 1 Intelligent Collaboration devices.
- Category 1 Intelligent Collaboration maintenance card: It can also be used for Common Parts Intelligent Collaboration devices.

Note 2: High-level maintenance cards of Storage products are applicable to low-level device models. The relationship is as follows:

- OceanStor HD Disk Enclosure Maintenance Card: It can also be used for OceanStor Dorado Disk Enclosure、 OceanStor Storage 5XXX/2XXX Controller、 OceanStor Storage SAS Disk Enclosure 、 OceanStor Dorado 2XXX Controller、 OceanStor SSD devices.
- OceanStor Dorado Disk Enclosure Maintenance Card: It can also be used for OceanStor Storage 5XXX/2XXX Controller、 OceanStor Storage SAS Disk Enclosure 、 OceanStor Dorado 2XXX Controller、 OceanStor SSD devices.
- OceanStor Storage 5XXX/2XXX Controller Maintenance Card: It can also be used for OceanStor Storage SAS Disk Enclosure 、 OceanStor Dorado 2XXX Controller、 OceanStor SSD devices.

- OceanStor Storage SAS Disk Enclosure Maintenance Card: It can also be used for OceanStor Dorado 2XXX Controller、 OceanStor SSD devices.
- OceanStor Dorado 2XXX Controller Maintenance Card: It can also be used for OceanStor SSD devices.

Note 3: High-level maintenance cards of Data Communication products are applicable to low-level device models. The relationship is as follows:

- Category 5 Data Communication maintenance card: It can also be used for category 1, 2, 3, and 4 Data Communication devices.
- Category 4 Data Communication maintenance card: It can also be used for category 1, 2, 3 Data Communication devices.
- Category 3 Data Communication maintenance card: It can also be used for category 1, 2 Data Communication devices.
- Category 2 Data Communication maintenance card: It can also be used for category 1 Data Communication devices.

Note 4: High-level maintenance cards of Data Communication (Firewall) products are applicable to low-level device models. The relationship is as follows:

- Category 5 Data Communication (Firewall) maintenance card: It can also be used for category 1, 2, 3, and 4 Data Communication (Firewall) devices.
- Category 4 Data Communication (Firewall) maintenance card: It can also be used for category 1, 2, 3 Data Communication (Firewall) devices.
- Category 3 Data Communication (Firewall) maintenance card: It can also be used for category 1, 2 Data Communication (Firewall) devices.
- Category 2 Data Communication (Firewall) maintenance card: It can also be used for category 1 Data Communication (Firewall) devices.

Note 5: High-level maintenance cards of MiniFTTO products are applicable to low-level device models. The relationship is as follows:

- Category 3 MiniFTTO maintenance card: It can also be used for category 1, 2, 4 MiniFTTO devices.
- Category 2 MiniFTTO maintenance card: It can also be used for category 1, 4 MiniFTTO devices.
